

Alternative Models for New Housing

Friday May 12th | 10:00-16:00 | Winckworth Sherwood, London

The UK is struggling to build homes of sufficient quantity and quality. This event explores the alternative models in the market such as custom-build, community land trusts, Local Authority led, socially led and co-housing; and different delivery methods such as modular and off-site manufacturing. The choice is varied and suits small and large scale visions, all of which have the scope to increase the quality and quantity of new homes.

Programme

9:30	<i>Registration</i>
